

## Face Reality Certified Acne Specialist Agreement

Face Reality Skincare products that do not have active ingredients, i.e. sunscreens, moisturizers, cleansers and toners are permitted to be sold to anyone, even on the internet. However, Face Reality products that do have active ingredients\* may only be sold to clients whose home care is managed (serums tested on client's skin, progress tracked) by a Face Reality Certified Skin Care professional. The unsupervised use of these active products can have a negative effect on one's skin. Improper use is detrimental to the user as well as to the reputation of Face Reality products and its affiliates.

We, at the clinic, adhere to this same policy and expect that you will do the same. Violation of these policies will necessitate the withdrawal of your Face Reality certification and you will no longer be qualified to purchase Face Reality products.

We also insist that you do not provide our products, for resale to anyone who is not Face Reality Certified unless they are under your direct supervision. Please understand that the responsible sale of Face Reality products is integral to protecting the Face Reality reputation and benefits those who are Face Reality Certified. This policy is not aimed at restricting your commerce but to maintain the integrity of all of us.

Thank you for your understanding.

\*Face Reality is defining "active products" as any product which contains: vitamin A, benzoyl peroxide, hydroquinone, glycolic acid, salicylic acid, mandelic acid or any other alpha or beta hydroxy acids unless specified below.

Products **not** to be sold online include:

**Serums:** Mandelic 5%/8%/11%/15%, Glycolic 5%/10%, Salicylic Gel Serum, Vitamin A Serums

**Acne Med:** Acne Med 2.5%/5%/10%, Acne Med 5 w/3% Sulfur, Acne Med 10% w/3% Sulfur

**Cleansers:** Mandelic Wash, Mandelic Scrub, Acne Wash, Acne Scrub

**Toners:** Glycolic-Lactic Toner

*You are allowed to sell Salicylic Antiseptic Toner online because it contains less than 1% Salicylic Acid.*
